Royal Alphabet Bingo

For the Prince & Princess

What You Need

- Alphabet and Number Caller Cards
- Master Game Cards
- Player Game Cards - one per player
- Tokens - 12 per player (see below for ideas)

How To Play

Caller

One person is the Caller and is not considered a Player. Give the Caller the Caller Cards and Master Game Cards. Arrange the Master Game Cards in front of the Caller. Shuffle the Caller Cards and place in front of the Caller.

Player

Give each Player a Player Game Card and 12 Tokens. Each Player places a Token on the Free square on the Player Card.

The Game

The Caller draws one Caller Card and calls out the letter or number, and shows the card to the Players. The Caller then places the Caller Card on the matching square on the Master Game Cards.

Each Player then looks at his/her card. If he/she has a letter or number that matches the Caller Card, he/she places a Token on that square.

Winning

The Caller decides before the game starts how the game will be won. The Caller should verify that all the letters and numbers on the winner's Player Card have been called out by matching it to the Master Game Card.

- Choice #1: The first Player who fills his/her card with Tokens (one Token on each square) wins.
- Choice #2: The first Player who fills one row on his/her card with Tokens (one Token on each square) wins.

Notes

Print: Print the following pages on cardstock. Cut where indicated, and laminate if desired. (If you laminate you can print on plain paper.)

Tokens: Use anything that is will not roll and is small enough to fit on the individual squares. Ideas: colored rhinestones (to simulate the Royal Jewels), buttons, pennies, etc. You need 12 Tokens for each Player.

Player Game Cards: Two blank cards are included at the end of this document so you can make your own cards. Print out and make as many as you like, just be sure each one is different.

Game Storage: Store all your game cards and pieces together in a large envelope, gallon plastic zip-lock bag, or small box.

Have fun!
